## Time 4 Timber's Vision

"At Time4Timber we run on passion and care about the quality of our products."

"All our pieces of solid slab timbers are one of a kind, not one is the same."

"We are Australian owned and all our products are made in Brookvale, Australia."

## Retail - Commercial

We help you by designing the initial layout, organising the planning, adapting our timbers and executing the project to completion. You won't feel intrusion as we install your fit-out or complete your furniture.

That's why we personalise each quote to your needs.

We know how a business works. Whether you own an office, restaurant, pub, educational building, café or a retail shop, we can work to your hours and deadline.

- Boardroom tables
- Reception
- Wall paneling
- Kitchens
- Sculptures/art piece
- Slab flooring
- Cabinets
- Bars
- Doors
- Seating

**DID YOU KNOW?** We create solid pieces from the ground up: the legs, support frame and table tops are built out of thick, solid and long-lasting timber. No corners are cut, unless you like a straight-edge.

## Residential

We can help you by designing the layout, organising the planning, adapting our timbers to your requirements and executing the project to completion.

Time 4 Timber has continued to grow through the quality of our products. Our friendly customer-orientated staff are creative, focused and the best in their fields.

*"Fantastic in every way, everyone should have a table from them."* – Jenny Wall

*"I've recommended Time 4 Timber to so many people and will continue to do. I was 100% satisfied."* - Val Taylor

*"The craftsmen were proud and enthusiastic about their products."* – Mike Chapman

- Entertainment units

## Detailed Joinery & Kitchens

Have our professional cabinet makers and designers assist you with the design of your joinery project or choice of kitchen. Then have the team at Time4Timber embrace the finer details, that we are renowned for, our ability to complete and deliver on time is impeccable. We have the best tradesmen in the business to install and assemble your project in the most efficient and orderly way possible.

We also can provide complete co-ordination of trades or we welcome the business relationships to work with other trades.

What makes us different from the rest? We have unique, rare and one-off solid timber slabs. When you see our solid timber slabs, they will draw you to them and it will make you want to touch, feel and smell these unique species.

We understand our timbers so we have the right machinery that will beat our competitors to the finish line.

All our kitchens are designed to fit perfectly and incorporate all the modern hardware for example soft close options, saving space options, and access options. You can then finish your kitchen off with a magnificent timber bench top or there are laminated, granite, marble or stone options.

Let us price your next joinery project and you won't be disappointed.

**DID YOU KNOW?** For a family heirloom built for a king, we incorporated Australian Opals into an 8-seater dining table for a pair of grandparents. They plan to pass it onto their grandchildren, who can't stop looking at the glinting jewels in clear resin.

# Timber Types

At Time4Timber we source all our slab timbers from all over different parts of Australia.

Our timbers are ethically salvaged or recycled. This process uses timbers that would otherwise go to waste.

Australian Red Cedar

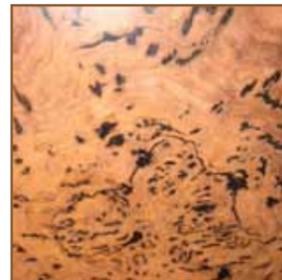

Forest Red Gum

Black Bean

Queensland Maple

River Red Gum Burl

River Red Gum

Jarrah

Spotted Gum

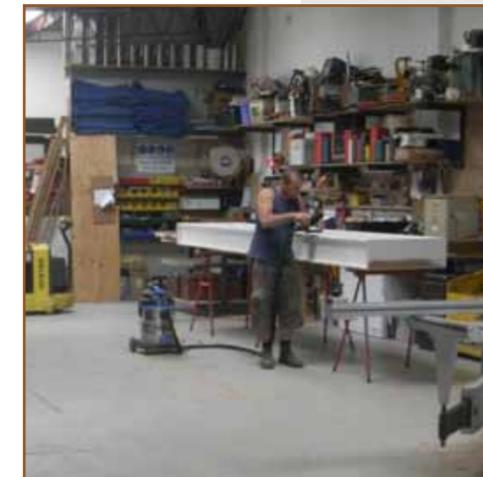

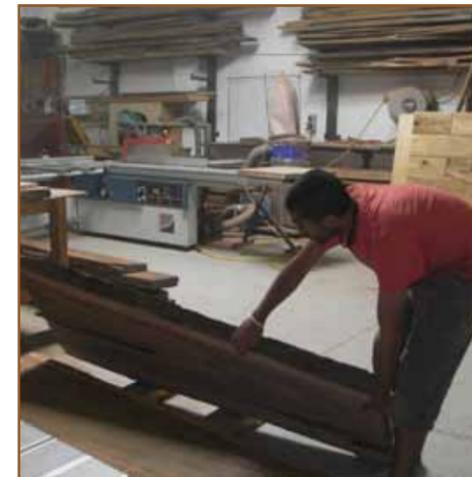

**DID YOU KNOW?** Fiddleback is what occurs when a branch places stress on its trunk as it gains in weight. This creates a stretch mark like effect in the solid grain of the timber and can be seen through gloss and shine as a feature.

## Raw Slabs - DIY

At Time4Timber we have numerous raw slabs ready to go. For all those keen DIY clientele we have slabs of all sizes ranging from a slab floating shelf to a 1 piece slab Dining table top. Let us know your requirements and sizes and we can supply you with a raw slab ready to go.

Visit our website to view our Raw Slab selection online : [www.time4timber.com](http://www.time4timber.com)

**DID YOU KNOW?** If you want to keep the rustic timber look, you can have a natural-edged table, which shows the bark and shape of the tree.

# Light Table - First of Its Kind

At Time 4 Timber, we're introducing lighting in timber slabs. A subdued light can radiate from your dining table to create unbelievable atmosphere. A timber art piece could brighten up a dull wall or decorate your office. Be the first to own something extraordinary.

**DID YOU KNOW?** We can incorporate stainless steel, lights, glass and tile into our products.

**River Red Gum Burl Dining Table with Yellow Box Border**

**Lights in action**

# Importing and Exporting

You can import and export our furniture to any place around the globe. Our timber products have already made homes in different countries, including America and Germany.

We are ready to send to you container loads of dressed slabs that can be used for your home, hotel construction or shopping complex.

Slabs can be cut to your requirements or sent in their natural state. Which option you choose will be of the highest quality Australia has to offer.

Quarantine, customs and shipping to your local port can be organised through our helpful staff and extensive contacts.

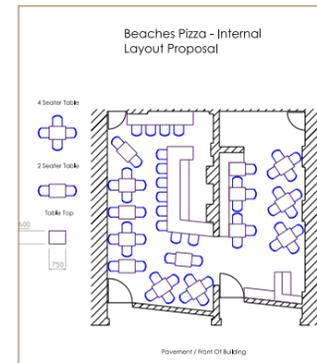

# Trust Our Case Study

Mike Cummins, owner of Beaches Pizzeria, was a unique walk-in customer for Time 4 Timber. He wanted a complete timber fit-out within a tight schedule and budget.

Cummins had a rough idea of what he wanted. Vlad Kis along with our designer Wesley Dunlop, did the rest. Together, they evaluated and measured the restaurant. The challenge was to fit 80 people comfortably while maintaining a vibrant and clean look that was distinctly Australian.

The floors set the mood for the room. Each slab panel was from a different part of the country. As pioneers of timber slab flooring, our carpenters cut warping grooves in the back of the boards to stop them from cupping or concaving. Unique baton screws ensured that the timber was guaranteed not to move while we allowed for expansion and contraction between boards.

McKay Cedar was used to create the bar in the

centre of the restaurant. Our designers used this beautiful timber for its white sapwood border with a deep red centre.

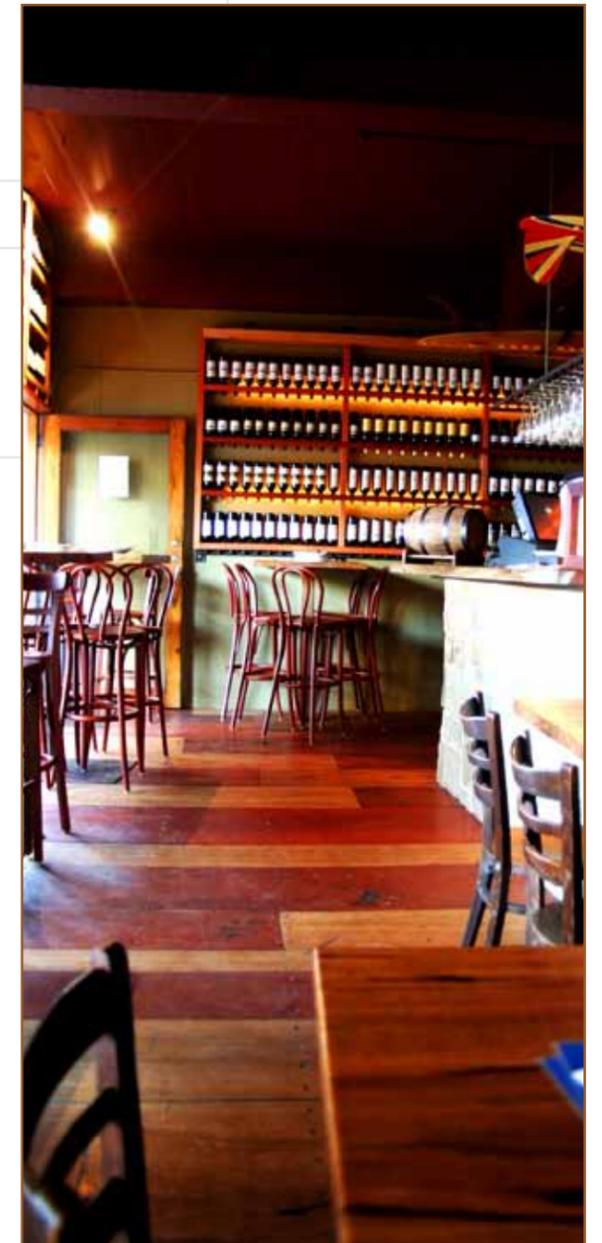

We found huge Cedar slabs, polished it off and set it as the bar top. Constructed on top of the bar was wine glass racks made out of textured wrought iron. Time 4 Timber used sandstone for the wall to give the bar a rustic quality.

Dining tables were constructed using solid pieces of timber from five hand-picked varieties. Bench seats were built to match.

The walls are lined with wine racks made from true blue Australian Red Cedar. The timbers were chosen for their sturdy nature, vibrant colour and smells. It now holds over 600 bottles. What better to match wood-fire pizzas?

The complete timber fit-out was installed in three days and took six weeks of planning and construction.

A complimentary floor history with a background on each board was presented to Mr. Cummins, a man who speaks highly of the timber company.

## Time for furniture that lasts a lifetime

In the unassuming Time4Timber warehouse on Sydney's northern beaches, a row of giant tree slabs sit in racks along the walls waiting to find new homes.

Each slab has its own story – most have been salvaged from all over different parts of Australia. Several are hundreds of years old and have been knocked down in storms or succumbed to old age and fell to the ground. No slab is the same, they all come in different hues, shapes and sizes.

But this is no timber graveyard.

It is a place where craftsmen Vlad Kis and the team at Time 4 Timber works their magic, transforming timber into furniture and fit-outs for individual customers.

Each piece is a stunning work of art and retains the originality and raw beauty of each slab of timber - complete with knots, imperfections and rough edges.

Every quality timber product is a conversation starter. These are pieces you want to run your hands over and inhale their delicious woody scent. At Time 4 Timber, each slab sold is personalised with an extensive background history and ways to look after your timber. We know your timber product can last several lifetimes, so we're putting in the effort to show you how.

Time 4 Timber is an innovative company set up by dynamite duo Vlad and wife Kylie. Vlad's 20 years of extensive knowledge in several trades means he has a clear outlook of a finished product as well as a problem-solving background. Together, they can give you a comprehensive and accurate quote that's sure to ensure creative flair.

Clients can come in and buy ready-made pieces or select a raw slab and have it made to their requirements. The company also offers detailed joinery and has experience in the production of corporate furniture.

A few years ago Vlad and Kylie Kis saw a raw slab of 180-year old Australian Red Cedar at a timber show. Vlad turned the rough slab into a beautiful table worthy of a family heirloom in memory of his father, who had recently passed away.

The passion was captured in the timber and the family decided to mix their business with their love. Time 4 Timber was born.
